

Create Your Own Bucket List

You can each make a list of 50 things you want to do or accomplish during your lifetime and share it with one another. Keep records of the list and check off the things you accomplish. Be sure to include some things that are more attainable, as well as lofty goals. Even if you only check off one item during one year of mentoring, your mentee can hold on to your list all summer and you can update it at the start of the new year!
