

Make a Collage

Can't draw it? Collage it! Making a collage is easy and fun for artists and non-artists alike. It's a great way to express feelings, thoughts, interests, events, and goals. Additionally, producing art can boost your mentee's self esteem and even open up a shy mentee.

Brainstorm together and choose a theme like: "What do I want in my future?", "What is fashion?" or "What I want to be" and find pictures and words in old magazines and glue them on paper. You can even tailor the collages to match the season, for instance "What back to School Means to Me," "Winter Holidays," "Spring is in Bloom," and "What Summer Brings." Get creative and make one yourself as well!

Here are some wonderful resources for making an amazing collage!
