

What's Your Plan?

Sometimes we all need a plan. Help your mentee look ahead in their life plan by making a timeline of their life over the next 5-10 years. What do they want to accomplish by the time they are 10, 16, 18, and 25? Discuss some of their specific goals and encourage them to think about what will help them accomplish them, what will be challenging, and why reaching that goal will be rewarding. If 5-10 years is too daunting, start out with one year and leave yourself room to build off of it as your mentoring sessions continue. Use clippings from magazines, newspapers, or personal photographs to visually display their life timeline.

What you need:

- ~ Legal paper (or tape a couple of regular size paper together)
- ~ Tape
- ~ Pictures, Magazines, Newspapers
- ~ Pens, Pencils, Crayons, Markers
- ~ Scissors
