

Puzzle Time

Put together a puzzle or make your own! There are many different kinds of puzzles: word searches, crosswords, logic puzzles, picture puzzles, mazes, Sudoku's, etc. Experiment with different kinds of puzzles with your mentee. Try to make a word search separately using spelling words and then swap puzzles; see who can find all the words first! This is a great way to have fun with words, encourage problem solving, and be creative.

Traditional puzzles are fun as well and there are many different sites online where you could make your own puzzles. Once you've made one of your own then challenge yourself to find bigger and harder puzzles...maybe even one with 1,000 pieces!
